BIO-CHLOR™

RUMEN FERMENTATION ENHANCER

BIO-CHLOR™ Rumen Fermentation Enhancer is a patented feed supplement for prepartum transition cows providing a source of degradable protein and dietary anions. BIO-CHLOR is the only consistently formulated, palatable anion source that drives bacterial growth to support rumen function and optimize metabolizable protein (MP).

BIO-CHLOR	Units	Typical Analyses	
		As Fed Basis	100% Dry Matter Basis
Moisture	%		13.00
DM	%		87.00
CP	%DM	42.31*	48.63
Net energy lactation	Mcal/lb	0.70	0.80
ADF	%DM	4.24	4.87
NDR	%DM	15.02	17.27
Lignin	%DM	1.61	1.85
Lignin/NDF ratio	%NDF	9.34	10.73
Sugar	%DM	7.48	8.60
Starch	%DM	11.77	13.53
Mg	%DM	1.80	2.07
K	%DM	1.06	1.22
S %	%DM	3.13	3.60
Na	%DM	1.30	1.49
Cl ion	%DM	7.90	9.08
DCAD (Na + K)-(Cl + S)	meq/100g DM	-337.87	-388.36

*Includes not more than 31.3% equivalent crude protein from nonprotein nitrogen as soluble peptides, amino acids and nucleotides.

INGREDIENTS

Dried condensed, extracted glutamic acid fermentation product; dried condensed corn fermentation solubles; processed grain by-products; magnesium chloride.

DCAD

BIO-CHLOR provides a source of dietary anions with a DCAD of -337.87 (as fed) meq/100 grams. Research indicates that the optimum DCAD for transition rations is -8 to -12meq/100g ration dry matter.

BULK DENSITY

29 – 32 lbs./cu. ft.

BIO-CHLOR™ Rumen Fermentation Enhancer

INFORMATION

BIO-CHLOR™ Rumen Fermentation Enhancer INFORMATION

PACKAGING

BIO-CHLOR™ is available in 50-pound bags.

STORAGE

BIO-CHLOR should be stored in a cool, dry area. Avoid exposing product to moisture before use. For best results, use product within six months of date received.

FEEDING RECOMMENDATIONS

BIO-CHLOR should be fed as a primary protein source in prepartum cow diets. Though feeding rates will vary based on the dietary cation content of the diet, amounts of 1.1 to 3.3 lbs. per cow per day should provide sufficient anionic activity for DCAD balancing in most prepartum cow rations. For specific feeding recommendations, always consult with a nutrition advisor.
